EGLR and WGLR enjoy unique joint *Lake Meeting*

The Eastern and Western Great Lakes Regions met jointly on the S.S. Badger car ferry as it traversed Lake Michigan between Manitowoc, WI and Ludington, MI on August 19, 2005. Twenty-two members and guests were on board, 19 from EGLR and 3 from WGLR. After light rain in the morning, weather improved during the day for the lake crossing on the only coal fired ferry on the Great Lakes. Regional business meetings were held on the west-bound trips before (EGLR) and after (WGLR) the technical session which was held on the east-bound crossing. Plans are already in the work for a similar joint meeting for next year.

Technical presentations were given by:

Roger Gauthier, Great Lakes Commission: *Plans for the Remote Sensing Subsystem of the Great Lakes Observing System*,

George Leshkevich, NOAA/GLERL: *Great Lakes CoastWatch Update – 2005*,

Robb Macleod, Ducks Unlimited: *Updating the National Wetland Inventory for Southern Lower Peninsula of Michigan*, and

Bob Brinkman, Woolpert: *Using Airborne LiDAR Bathymetry to Map Shallow River Environments.* ☺
